

SUNRAY

A RARE OPPORTUNITY TO OWN A VAN DAM LEGACY

SUNRAY is a privately commissioned wood-composite dayboat currently under construction by Van Dam Custom Boats. Inspired by timeless classics like the Chris-Craft Constellation, Hatteras motor yachts, and vintage Trumpys, this 50' masterpiece blends refined tradition with cutting-edge performance. Unlike those classics of the past, SUNRAY is superior in construction, durability, and technology—and still offers ample room for customization.

FEATURES & LAYOUT A clean, low-profile anchor system is mounted through the stem, leading to a forward jump seat and companionway to the cabin. A full walkaround with high, solid handrails ensures safe, easy deck access. The open salon offers 360° views, ideal for entertaining, and the galley—up or down—features a premium appliance package. Below, the cabin includes a dinette, full head with separate shower, and direct foredeck access.

PERFORMANCE Twin Cummins QSC 8.3L 600 HP engines drive this 36,000 lb vessel to a cruise speed of 33–35 MPH and WOT of 40 MPH, with a Seakeeper 6 providing exceptional stability at rest. Premium soundproofing and custom mufflers keep the ride whisper quiet, while joystick control and Side-Power thrusters deliver effortless maneuvering—even in tight marinas.

SYSTEMS & TECHNOLOGY A 21.5 kW Onan Genset ensures reliable off-grid power, complemented by a multi-zone HVAC system for comfort throughout. An optional C-Zone upgrade provides full lighting and electronics control. Advanced Seastar power steering and a hydraulic thruster system give smooth, precise handling in any condition.

EQUIPMENT LIST

- Galley sink, faucet, and workstation
- Stainless sink
- Sink countertop cutout
- Two-drawer refrigerator
- Induction cooktop – Ferguson
- Speed oven – Ferguson
- Shower mural for head compartment
- Grohe shower head and lines
